They are not in very serious carnesl, how ever, upon the subject, and whatever re it ons their hostility to Democracy may induc them to pass, we must regard it simply as the sult from their action, and if they wish to play men who can do so with less profit or injur to themselves or the country at large. We also indulge in the pleasing hope that they will signify in their platform their intention to me down to the level of the common people. It will be beneficial to them to come down to

We desire to see, if co patible with the in rests of the party, the n nal declaration of their hostility to foreign paupers and criminal because it is feared, un'ess this is done, that some one will take up the impression that they are in favor of foreign paupers and criminals which should be avoided.

If consistent with their advantage, it would also be as well to make a few remarks, say gainst the "corrupt Democracy." But what relse may be inserted, we wish to impress apon them the duty, and we urge it as a se the emphatic language of a Bowery boy, "lie wrapped himse fin the American flag and died like a son of a -- gun." This is an ex cellent suggestion. There must be much Star Spangled Banner and Union. A few allusions to the "Fathers of the Republic" might also be introduced with good effect, if the scenery and properties could be made appropriate. The Mails Delay.

We learn that the Postmaster General has or ered the Eastern mail and the mail from Cin innati, to come hereafter via Mitchell and New Albany, Inliana, instead of via Seymour and Jeffersonville to the Louisville distributing office as heretofore. By this route the mail is aken forty miles beyond Seymour to Mitchell at the junction of the Ohio & Mississippl and New Albany & Chicago railroads, and from thence to New Albany sixly-five miles, while from Seymour to Jeffersonville it is only forty nine miles. Over the Jeffersonville road the mails reached our city at 3 o'clock P. We have the astiefaction, however, of know ing that while the mails thus drag their slow

length along, that most excellent institution, the Adams Express, will make time as usual. Those having important correspond ence can avail themselves of the faithful agents of expresa companies connecting with the Eastern cities for the prompt delivery of heir correspondence.

The mail, in taking the circuitous route noced, will travel fifty-six miles further iu eaching Louisville than when forwarded, as seretofore, via Seymour and Jeffersonville. The farthest way around is the nearest way home for a sleighing party, but this will not hold good in the postal service.

This is the first arrival of fine dress goods for the spring, and they will be examined with interest. Call at | to 113 Fourth street, east side.

P. W. RAMSEY, on Third street, is one of the best watch-makers in our city. If you have a fine watch or clock out of order, take it to him for repairs. He has a great variety No. 109 Third st., bet. Market and Jefferse of watches, jewelry, clocks, silverware and

he stock of dry lumber, sash, doors, blinds, &c., will fall short, owing to the vast amount of improvements in Louisville, it will be interesting to the public to know that Alexander, Ellis & Co., have galarged their factory and have now on hand several million of dry lumber. Call at their office on Main street, nearly opposite the Gall House, or at their factory on Fulton, above Preston street.

J. N. Collins sells the best of coal at his office, Third street, between Market and Jefferson. Give him your orders.

The great clothing house of J. M. Arm rong, on Main street, opposite the National Hotel, is now being replenished with an cle gant stock of men and boys' clothing for the resent season. His stock is well assorted. Those in want of any garments for either men's youths' or children's wear, will do well to call

TRUNKS .- Among the places worthy of the ttention of the visitors to Louisville at the present time, is the great trunk manufactory and emporium of J. H. McCleary, on the northeast corner of Fourth and Main streets. His large manufactory enables him to supply trunks, valises, bonnet and hat boxes, carpet bags, bureau trunks, etc., of the very best quality, at unprecedented low prices. All of Mr. McCleary's work is beautiful as well as durable goods. Give him a call.

Look to Your Interests. The people are aware that D. O'Hare, No. 427 Main street, is the oldest, largest and most experienced manufacturer of trunks and similar articles in the city. They should avail themselves of the rare opportunities afforded by Mr. O'Hare. To country and city mer chants he offers peculiar advantages in his wholesale department, while in the retail line he cannot be equaled. Whoever wants to travel, whether with a small carpet-bag or a mammoth trunk, need go no further than to the

Great Western Trunk Factory of Mr. O'Hare His manufactory is a credit to Louisville, and should meet with extensive patronage. Hundreds of workmen are employed, and thousands of dollars weekly disbursed. As a matter of thome pride, and to subserve economy, pur-chasers will consult their best interests in pur-chasing of Mr. O'llare.

Hoor SEIRTS. - John M. Robinson & Co. av now manufacturing a large stock for the Spring trade. Their Skirts have attained great popularity, as they use only the very est tempered watch spring steel, and each hoop is fastened to the tapes by means of a woven loop instead of the ordinary clasp Thus effectually preventing the annoyance of the tapes being constantly cut. Their skirts can be had at all the retail houses throughou the South and West. Sold only at wholesale.

UNHEALTHY BREAD .- In no article of food should more cautiousness be exercised than the "staff of life"-bread. In order to have it healthy and nutritious, good flour and pure yeast are necessary. Hurley's Quick Yeast is the best article in use, and in using it there is o fear of swallowing a dyspepsy with you

Kokono, 1sm., Ang. 16, 1870.

Dn. Roback—Dear Sir: It is due to you and the public, more especially the afflicted, to say that I have given your invaluable Scandinavian Blood Purifier a fair trial in a number of cases of diseases arising from unhealthy blood, in all of which it has exceeded my expectations, and comes fully up to its recommendations. I do, therefore, with pleasure, recon mend it to all the afflicted whose disease indi ales a remedy of that description.
Yours, truly,

The IRON being absorbed by the blood, and thus eirculating through the whole system, no part of the body can escape their truly wonderful influence. The experience of thousands daily proves that ne preparation of from can for a moment be compared wit. it. Impurities of the blood, depression of vital energy, pare and otherwise sickly complained indicate its necessity in almost every conceivable case. In all cases of female debility (thor albas, chioresis, dec) its effects are delightfully renovating. No remody has ever been discovered, in the whole history of medicine, which exerts such presspit, happy and fully resionative effects. Good appetits, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use. As a grand somachic and general restorative it has no superior and no substitute.
